Summary

Hi, I am Eazhिलamuthan, I had Done intership for UxTroupe, I have good experience and done several projects using React Js and have great understaing in Javascript Es6, Api's, State managment Library like Redux and Redux-Sagas and created Ui and Motion design for websites

Experience

Web Developer Intern

UxTroupe • Trichy, Tamil Nadu
07/2020 - 01/2021

- Develop UIs into working websites and added functionalities
- Implemented animations and mobile responsibility to improve application functionality
- Created Md file generator for Static Website Like Hugo

Freelancer

01/2021 - Present

- Build portfolio website for my friend Kishore Kumar who is a motion designer and flutter developer using React Js, React-Redux for state management, firebase for database and storage, framer motion for animations, and do some motion graphics work in after effects to make the website contains some videos. So it says more about him and showcases his works
 - Build a landing page for a little freelance startup Tweak Digital Service using Vue Js
 - Build a Clothing Store as my personal portfolio project using React Js, Redux as state management, firebase for database, and sagas for some functionalities
-
